DVCon Europe Reports Further Strong Growth
Sixth edition repeats 20% year-on-year growth in attendees, with a sold-out exhibition

Munich, Germany 21st November, 2019 - The Design and Verification Conference & Exhibition Europe (DVCon Europe), held annually in Munich in October and sponsored by Accellera Systems Initiative, has announced that the 2019 figures indicate continued strong growth for the event.

This year's registrations represent growth of over 20% year on year, while delegates attended from 111 different companies (70 in 2018) and from 32 countries (27 in 2018). The number of exhibitors was also up, from 22 to 27.

DVCon Europe broadened its scope in 2019 by including embedded software for the first time. Tutorials such as those on software development for safety/security critical systems and on autonomous flying proved to be very popular and Joachim Geishauser, General Chair, said, "Our decision to broaden the scope of the show has reaped dividends in terms of attendance and we have had some great feedback too. We will expand our software focus next year".

The award for Best Paper went to a team from Cadence Design Systems, Texas Instruments, Ben Gurion University and Bengal Engineering and Science University, for a paper entitled "Portable Stimuli Over UVM, Using Portable Stimuli in HW Verification Flow".

The next DVCon Europe will be held at 27 and 28 October 2020, followed by the SystemC Evolution Day on 29 October 2020.

ABOUT DVCON EUROPE

The Design and Verification Conference & Exhibition in Europe (DVCon Europe) is the leading European event covering the application of languages, tools and intellectual property for the design and verification of electronic systems and integrated circuits. Sponsored by Accellera Systems Initiative, and one of several DVCon events around the globe (see below), DVCon Europe brings chip architects, design

& verification engineers, and IP integrators the latest methodologies, techniques, applications and demonstrations for the practical use of EDA solutions for electronic design. For more details, visit www.dvcon-europe.org. Follow #dvconeurope on Twitter.

DVCON AROUND THE GLOBE

DVCon U.S. will be held at the DoubleTree, San Jose from March 2nd to 5th 2020.

DVCon China will be held at the Parkline Century, Shanghai on 15th April 2020.

ABOUT ACCELLERA SYSTEMS INITIATIVE

Accellera Systems Initiative (Accellera) is an independent, not-for profit organization, dedicated to create, support, promote and advance system-level design, modeling and verification standards for use by the worldwide electronics industry. The organization accelerates standards development and, as part of its ongoing partnership with the IEEE, its standards are contributed to the IEEE Standards Association for formal standardization and ongoing change control. For more information, please visit accellera.org. For membership information, please email membership@accellera.org. Follow @accellera on Twitter or to comment, please use #accellera.

ACCELLERA GLOBAL SPONSORS: Cadence; Mentor, A Siemens Business; Synopsys
